

The document titled *Alliance 90/The Greens: Party Program and Principles* provides a comprehensive overview of the political, social, and environmental goals of the party. Below is a detailed breakdown of its key components:

1. Preamble:

- The core principles of the party center around human dignity, freedom, self-determination, and the protection of nature.
 - Advocates for democracy as the foundation for freedom and justice.
 - Emphasizes the indivisibility of human rights and the importance of environmental conservation for future generations.
-

2. Values:

- **Ecology and Sustainability:**
 - Ecology is linked to sustainability and the rethinking of industrialism.
 - Promotes a lifestyle based on care and respect for nature, ensuring sustainable consumption and production patterns.
 - Calls for international cooperation to address ecological challenges, as sustainability must be a global effort.
- **Freedom and Self-Determination:**
 - Supports individual freedom while acknowledging its connection to legal and social conditions.
 - Rejects a market-based definition of freedom that excludes social and ethical responsibilities.
 - Encourages minority rights and freedom from social, gender, or ethical barriers.
- **Equitability:**
 - Defines equity as fairness in resource distribution, with a focus on vulnerable groups.
 - Advocates for intergenerational equity, gender equity, and global justice.
 - Stresses solidarity and citizen participation as necessary for equitable policies.
- **Democracy:**
 - Democracy is the basis of political behavior, emphasizing participation and direct involvement.
 - Advocates for transparency in decision-making, strengthened parliamentary democracy, and international democratic frameworks.
 - Opposes extremism, racism, and anti-Semitism.

- **Human Rights and Non-Violence:**

- Stands firmly for universal human rights as outlined in the UN Charter.
 - Promotes non-violence and conflict prevention, recognizing limited scenarios where force may be required under international law.
-

3. Challenges in a Changing World:

The document highlights key global challenges and offers responses:

- **Ecological Challenges:**

- Climate change, species extinction, and resource depletion require immediate action.
- Advocates restructuring economic and social systems for ecological sustainability.

- **Globalization:**

- Acknowledges the risks and opportunities of globalization, such as inequality and environmental degradation.
- Supports global collaboration and equitable trade systems.

- **Individualization:**

- Celebrates personal freedom but warns of potential social isolation and weakening solidarity.

- **Technological Advancements:**

- Calls for equitable access to information and democratic participation through new technologies.

- **Demographic Changes:**

- Addresses aging populations and the need to reform welfare systems, education, and employment policies.

- **Migration and Gender Relations:**

- Supports immigration as a productive force while promoting equal participation for migrants.
 - Seeks to create gender equality in all aspects of society, recognizing continued power imbalances.
-

4. Key Policies and Goals:

A. Ecological Transition:

- **Renewable Energy:**
 - Transition from fossil fuels and nuclear power to renewable energy sources like solar and wind.
 - Promote energy efficiency, decentralized energy systems, and hydrogen technology.
- **Sustainable Development:**
 - Advocate for efficient resource use and sustainable urban planning.
 - Prioritize local production and consumption to reduce environmental impact.

B. Social Policy:

- **Equity and Welfare:**
 - Proposes a basic standard of living for all citizens.
 - Combats poverty through fair labor market policies and social inclusion.
- **Education and Knowledge Society:**
 - Promotes lifelong learning, quality education, and equal access to knowledge.
 - Supports full-day schools, education reforms, and opportunities for marginalized communities.
- **Healthcare:**
 - Advocates for patient-centered health policies and fair access to care for people with disabilities and senior citizens.

C. Transportation:

- Promote eco-friendly transportation systems by improving public transit, encouraging cycling, and reducing reliance on cars.
- Support integrated mobility policies that balance urban planning and sustainability.

D. Economic Policy:

- Calls for an *ecological and social market economy* that balances innovation with sustainability and equity.
- Supports gender equality in economic participation and decision-making.
- Advocates for ecological fiscal reforms, like taxing pollution and promoting green industries.

E. Gender Equity:

- Proposes policies to end gender-based discrimination and violence.
- Supports women in leadership roles and workplace equity.

5. Global Perspective:

- Calls for a strengthened United Nations and international cooperation to address global issues like climate change, poverty, and conflict.
 - Proposes ecological and fair trade practices, emphasizing environmental justice and equitable resource distribution.
 - Supports women's empowerment globally as a core element of sustainable development.
-

6. Key Projects:

The document outlines 12 strategic goals for 2020:

1. Transition to renewable energy (Solar Age).
 2. Sustainable and eco-friendly transportation (Ecologically Mobile).
 3. Consumer transparency and protection.
 4. Promoting sustainable agriculture.
 5. Ensuring a basic standard of living.
 6. Implementing child-centered policies.
 7. Ensuring equal access to knowledge and education.
 8. Empowering women in leadership roles.
 9. Creating an open, multicultural immigration society.
 10. Strengthening democratic participation in Europe.
 11. Promoting fair world trade and international standards.
 12. Reducing CO₂ emissions and combatting climate change.
-

7. Nature Conservation and Animal Rights:

- Highlights the importance of biodiversity and protecting ecosystems for their intrinsic and practical value.
 - Calls for integrating nature reserves into broader ecological networks and combating deforestation globally.
 - Advocates for animal rights, banning cruel farming practices, and phasing out animal testing.
-
