

The document provides the political manifesto of the Alternative for Germany (AfD), focusing on various aspects of governance, policy, and national interests. Here's a detailed summary:

---

## 1. Democracy and Core Values

- **Referenda:** Advocate for Swiss-style direct democracy with public referenda for significant decisions.
  - **Government Reform:** Aim for lean governance focused on security, justice, foreign relations, and financial administration.
  - **Separation of Powers:** Strengthen checks and balances between executive, legislative, and judiciary branches.
  - **Political Accountability:** Limit party influence, implement term limits for career politicians, and promote transparency.
- 

## 2. Europe and the Euro

- Oppose centralization of the EU, advocating for a Europe of sovereign nation-states.
  - Call for a referendum on the Euro and an orderly dissolution if needed.
  - Reject liability for foreign banks and demand the restoration of national financial sovereignty.
- 

## 3. National Security and Justice

- Strengthen law enforcement, modernize police and judicial systems, and lower the age of criminal responsibility to 12.
  - Introduce stricter penalties for crimes and tighten repatriation processes for foreign offenders.
  - Oppose further restrictions on firearms and prioritize public safety over data privacy for criminals.
- 

## 4. Foreign and Security Policy

- Advocate for Germany's withdrawal of foreign troops and a focus on national interests.
  - Strengthen the German Armed Forces and reject the idea of a European army.
  - Support NATO as a defensive alliance and seek reforms in the United Nations for greater German influence.
-

## **5. Labour and Social Policy**

- Dissolve the Federal Labour Agency and transfer responsibilities to municipal job centers.
  - Retain minimum wages and reform social security systems to support families.
  - Advocate for equitable taxation and reward families for raising children.
- 

## **6. Families and Children**

- Promote traditional family structures and support for larger families to address demographic challenges.
  - Oppose mass immigration as a solution to demographic issues.
  - Enhance support for single parents, full-time mothers, and families with children.
- 

## **7. Culture, Language, and Identity**

- Preserve German cultural heritage and language, opposing multiculturalism.
  - Restrict foreign funding for mosques and oppose public status for Islamic organizations.
  - Abolish broadcasting fees and reduce political influence on arts and culture.
- 

## **8. Education and Research**

- Focus on knowledge transfer, strengthen vocational training, and oppose gender mainstreaming.
  - Reintroduce traditional diploma degrees and emphasize discipline and motivation in schools.
- 

## **9. Immigration and Integration**

- Oppose irregular immigration and mass migration.
  - Advocate for stricter asylum policies and focus on integration through education and cultural assimilation.
  - Promote transparency in immigration costs and stricter measures against immigrant crime.
- 

## **10. Economy and Digitalization**

- Support free-market policies, reduce bureaucracy, and promote small and medium-sized enterprises.
  - Advocate for digital sovereignty through open-source software and enhanced consumer protection.
  - Oppose excessive state subsidies and privatization without public consent.
- 

## **11. Finances and Taxes**

- Propose a simplified tax system with upper limits on taxation.
  - Abolish wealth and inheritance taxes and ensure competitive national taxation systems.
  - Maintain the unrestricted use of cash and promote financial transparency.
- 

## **12. Energy Policy**

- Oppose current climate protection policies, calling for a focus on environmental sustainability without political biases.
  - Advocate for nuclear energy alternatives and reconsider subsidies for renewable energy sources.
- 

## **13. Nature, Agriculture, and Environment**

- Oppose the uncontrolled expansion of wind turbines.
  - Support competitive and sustainable agricultural practices and protect animal welfare.
  - Address the impacts of genetic engineering and environmental preservation.
- 

## **14. Infrastructure and Transport**

- Focus on maintaining existing infrastructure and ensuring free transportation choices.
  - Support rural development and simplify housing laws to increase affordability.
